

To Whom So Ever It May Concern

BUILDING SAFETY CERTIFICATE

This is to certify herewith that the construction (School Building) Belonging to **SIDDHARTH PUBLIC SCHOOL**, At- Anandpur Chauki , R. T. O. Road, Haldwani, Tehsil –Haldwani & Distt.-Nainital in uttarakhand state is completely

R C C Frame Building and all the plinth, Top beams are laid under proper supervision and all light fittings ara concealed.

The top-most floor is a pucca construction with concrete wall of 1.20m. and the remaining wall, 1.80m. of colour coated steel sheets procured from TATA which is long lasting, high strength and better thermal efficiency (product specification attached for reference). A ventilation shaft of 0.60m. at the ceiling end is built around the entire structure for air ventilation and to maintain a comfortable climate during summers. The ventilation is also supported by exhaust fans. The ceiling is made with same material. Fans at strategic points assist in cooling. In an advent of power failure the entire building is on inverter assisted power back-up.

There are two nos of exits (incoming-outgoing) on first floor. I, personally inspected the building site and found all the requirement regarding the building safety are satisfactory.
